F. & F. Nurseries

WM. FLEMER'S SONS INC.

Springfield, New Jersey

Foreword

IN this new catalogue we have endeavored to place before you a comprehensive list of plant material available at our nurseries, so arranged as to assist you in quickly finding the information desired.

The three main divisions of plants, Deciduous, Evergreen and Herbaceous, are arranged separately in alphabetical order, and the whole completely indexed by using both the common and botanical names.

The prices are, we believe, as low as it is possible to sell such high class material, and still maintain the reliable service of which we are justly proud.

Anything we may say regarding our own business is apt to be regarded as a one-sided viewpoint, so we urge you to visit our nurseries to gain a first-hand impression.

Your business has been keenly appreciated and we believe the best method of expressing this appreciation is to handle your orders just as you would handle them yourself—this we shall try to do.

Respectfully

F. & F. NURSERIES.
